# EXPLANATION OF ABBREVIATIONS AND REFERENCE MARKS.

N—North. S—South. E—East. W—West. m—Miles. Ry or Rys—Railway or Railways.

† P. O. not located on Map.

\* Money Order Post Office.

† Telegraph Station.

‡ American Express.

§ Canadian Express.

⊕ Dominion Express.

All counties, towns, cities, villages, etc., are indexed in the following manner:

(See map of Kansas.)

	Pop. '00.
<b>Burlington, Coffey, O-36, (Rys 5-ac,</b>	
<b>31-b) * † ‡ ±</b> .....	2239
East Wolf, Russell, mail Lucas,	
Ilion, Rawlins, E-6.....	26

Burlington being in black type indicates that it is the county seat of Coffey county; O-36 shows where it can be found on the map (see example below); (Rys 5-ac, 31-b), that it is a station upon each of these railways, 5 and 31, and branches ac and b, (see list of railways, which are consecutively numbered and alphabetically arranged); \*, that it is a money-order post office; †, that it is a telegraph station; ‡ ± refer to the express companies as shown above; 2239 is the population given according to the latest official census.

East Wolf is in Russell county, and mail for this place should be sent to Lucas post office.

The letters and figures following names (like O-36 above) refer to that point on the map at which lines drawn from marginal figures top and bottom, and letters upon either side of map, would cross each other at right angles.

For example, to find "New York City, D-5;" let the diagram below represent the map. New York is seen near the crossing of lines D—D and 5—5.
